

# Autumn Flower Arrangement Workshop

This autumn bouquet will look great on a table or anywhere you would like a bit of autumn color. The glass vase is available in clear, green or gold. The flowers are made with paper that has been painted before the petals are shaped. There are five different flowers of varying sizes. The stems are wire. The filler is a combination of materials. You will make the flowers by painting the paper, shaping the petals, adding accents, and then form the flower center before assembling the flower on the wire. Once all of the flowers are made, dried and sealed you will create the arrangement in the vase using a variety of greenery. A few autumn leaves and maybe a few stems with berries may be added. You will need a basic mini tool kit which includes small sharp scissors, tweezers, a stylus for shaping the petals, a small foam pad and craft glue. Other materials will be provided. The project is not difficult yet you need patience, steady hands and an ability to wait while the glue dries! I look forward to meeting you.

Warm, Sunshine Wishes,  
Mary

- Workshop Cost \$40.00
- Four Hours 8-1 Saturday
